Product HORIZON (fragrance compound for Eau de Parfum)
Compounder Eterna Group LLC dba Aromatick
Date of issue 01 October 2026

We certify that the fragrance compound above complies with the Standards of the IFRA Code of Practice (51st Amendment), provided it is used in the following categories at a maximum concentration level of:

IFRA category	Description	Maximum % in finished product
Category 4	Fine fragrance and hydroalcoholic products applied to skin (Eau de Parfum)	28.7%
All other categories	Not assessed	Not certified

Horizon Eau de Parfum, as sold, contains the fragrance compound below this maximum level.

Specifications. Bergamot oil is a furocoumarin-free (FCF) grade. Phototoxic citrus oils are within the IFRA limits, summed together. Materials subject to IFRA purity or oxidation specifications are supplied with certificates confirming those specifications. The compound is stabilised with BHT. It contains no material prohibited by the IFRA Standards.

For use in any other category or at any other level, contact Eterna Group LLC dba Aromatick for a re-assessment.

This document is issued electronically by Eterna Group LLC dba Aromatick and is valid without signature. Responsible person: Rodney Gallagher, Founder & CEO. The information is given in good faith, based on the quantitative formula and the raw-material suppliers' certificates. Values are calculated concentrations and do not replace chromatographic quantification on individual lots.
